WOODSHANTI

WOODSHANTI  
Sustainable Furniture and Cabinetry

## custom furniture + cabinetry

## craftsmanship

## woodshanti cooperative

At Woodshanti, our woodwork is custom handcrafted with great attention to detail, using beautifully figured and contrasting woods such as maple, cherry, and walnut. Designed for both residential and commercial use, all our furniture is finished with a beautiful, naturally protective coat that is gentler on indoor air quality, our workers, and the environment.

Inspired by the graceful lines of nature, we combine functional and efficient designs with sound joinery and traditional woodworking techniques, to make timeless furniture that will last for generations. Drawn to our craft by a deep appreciation for the beauty of wood, we keep the material itself as a prominent feature of our designs, highlighting its beauty and working in harmony with its characteristics.

Woodshanti is a San Francisco-based, worker-owned cooperative that has been building high quality furniture and cabinetry made of responsibly harvested lumber and natural finishes since 1997, giving personalized attention to each and every project. Our portfolio of work features efficient, elegant designs and impeccable construction.
